

Tariff Circular

FileNo.105-01/2012-BP-Ent.

Dated: 08.06.2012

Subject: - Tariff for leased circuits provided on IDR (Intermediate Data Rate) Satellite Links- regarding.

Leased line charges prescribed by TRAI as well as issued by BSNL are independent of media used for providing the circuit. It is assumed that the leased lines will be provided on OFC/Copper media. If microwave, etc media is used then it is dealt as special construction case. No tariff is prescribed so far for leased lines provided on satellite media and tariff of such cases was dealt on case to case basis.

2. Now, requests are being received from Circles to prescribe general tariff for such a service because sometimes cases are booked without considering the Satellite Bandwidth cost. Therefore, following tariff has been decided by the competent authority in regard of leased circuits provided on IDR (Intermediate Data Rate) satellite Links

Bandwidth	Annual Charges on IDR link (In Rs. Lakhs)
64 Kbps	4.023
128 Kbps	7.242
192 Kbps	10.058
256 Kbps	12.472
320 Kbps	14.484
384 Kbps	16.093
512 Kbps	19.312
768 Kbps	25.749
960 Kbps	30.577
1 Mbps	34.600
2 Mbps	62.28
4 Mbps	87.03
8 Mbps	156.66

3. Terms and Conditions for the IDR leased line tariff: The following are the terms & conditions for leased lines up to 8 Mbps provided on IDR satellite links:

3.1 The tariff for any intermediate bandwidth shall be calculated on proportionate basis.

3.2 All existing as well as new leased lines provided on IDR satellite links will be charged at this tariff except those which are part of a specific project for which special tariff has been / had been prescribed separately taking all costs into consideration.

3.3 If a leased line is working partly on satellite link and partly on terrestrial link then satellite portion will be charged as per above prescribed tariff and the terrestrial portion will be charged as per existing leased line tariff.

3.4 All other charges such as for local leads, modems, charges for terrestrial portion, etc will be charged extra as per existing tariff.

3.5 Above mentioned charges are inclusive of Spectrum Charges. However service tax will be charged separately.

3.6 The tariff will be implemented w.e.f. 1st June 2012 and shall be valid for a period of one year.
