To
All CGM Telecom Circles / Metro Districts

Subject: Provision of back haul connectivity to WiMax BTS through spare DSLAM ports.

Some of the circles have intimated that they do not have OCLAN and RPR connectivity for integration of WiMax BTS and only DSLAM ports are available.

In all such cases approval of competent authority is hereby conveyed for utilizing spare DSLAM ports, wherever available, for providing connectivity to WiMax BTS as an interim solution. However after integration and commissioning of BTS, circles shall make efforts to switchover / change the backhaul connection through traditional means like OCLAN, RPR, SDH network at a later date thus freeing the DSLAM ports.

This is issued with the approval of competent authority.
