Subject: Guidelines for Consolidation of C-DOT switches for reducing operational expenses.

It has been decided by the competent authority that MBM exchanges working with less than 1000 DELs may be converted into RBMs and parenting them to the nearest MBM switch within the SDCA or to the nearest MBM switch located in the adjacent SDCA but within the same SSA.

Before conversion it may be ensured that all the rearrangement should be done in consultation with ITPC Circle regarding the billing information. It should be ensured that numbering plan in new exchanges remains same as far as possible. In case of different numbering plan the subscribers should be intimated one month in advance in writing so that they do not face any difficulty. The change should be planned in such a way that zero interruption of service takes place. Dialing rules should remain the same. In case of changes of dialing rules they should be widely publicized. Routing changes in Lev-II TAXs should be done accordingly to avoid any loss of traffic. Issue of POI should also be addressed in advance during change over planning. The complete list of activities should be planned before change over. Instructions regarding the above should be circulated to all concerned well in advance. The conversion exercise need to be completed by 31st Oct 2012.

No additional expenditure should be incurred for carrying out the above mentioned work. Saving on HSD, Electricity charges, AMC charges of AC plants may be ensured and a monthly report in the format (As per annexure) should be sent to this office by 10th of the following month.

Encl: As above
